

# mysql 5.7

Format: <http://www.debian.org/doc/packaging-manuals/copyright-format/1.0/>

Upstream-Name: MySQL 5.7

Upstream-Contact: <http://bugs.mysql.com/>

Source: <http://dev.mysql.com/downloads/mysql/5.7.html>

Comments:

The file Docs/mysql.info is removed from the upstream source because it is incompatible with the Debian Free Software Guidelines. See debian/README.source for how this repacking was done. .

Originally produced by a modified version of licensecheck2dep5 from CDBS by Clint Byrum <clint@ubuntu.com>. Hand modified to reduce redundancy in the output and add appropriate license text.

Also, MySQL carries the "FOSS License Exception" specified in README. Quoting from README:

MySQL FOSS License Exception We want free and open source software applications under certain licenses to be able to use specified GPL-licensed MySQL client libraries despite the fact that not all such FOSS licenses are compatible with version 2 of the GNU General Public License. Therefore there are special exceptions to the terms and conditions of the GPLv2 as applied to these client libraries, which are identified and described in more detail in the FOSS License Exception at <<http://www.mysql.com/about/legal/licensing/foss-exception.html>>.

.  
The text of the Above URL is quoted below, as of Aug 17, 2011.

.  
FOSS License Exception

.  
Updated July 1, 2010

.  
What is the FOSS License Exception? Oracle's Free and Open Source Software ("FOSS") License Exception (formerly known as the FLOSS License Exception) allows developers of FOSS applications to include Oracle's MySQL Client Libraries (also referred to as "MySQL Drivers" or "MySQL Connectors") with their FOSS applications. MySQL Client Libraries are typically licensed pursuant to version 2 of the General Public License ("GPL"), but this exception permits distribution of certain MySQL Client Libraries with a developer's FOSS applications licensed under the terms of another FOSS license listed below, even though such other FOSS license may be incompatible with the GPL. .

The following terms and conditions describe the circumstances under which Oracle's FOSS License Exception applies. .

Oracle's FOSS License Exception Terms and Conditions Definitions. "Derivative Work" means a derivative work, as defined under applicable copyright law, formed entirely from the Program and one or more FOSS Applications. .

"FOSS Application" means a free and open source software application distributed subject to a license listed in the section below titled "FOSS License List."

"FOSS Notice" means a notice placed by Oracle or MySQL in a copy of the MySQL Client Libraries stating that such copy of the MySQL Client Libraries may be distributed under Oracle's or MySQL's FOSS (or FLOSS) License Exception. .

"Independent Work" means portions of the Derivative Work that are not derived from the Program and can reasonably be considered independent and separate works.

Program" means a copy of Oracle's MySQL Client Libraries that contains a FOSS Notice.

A FOSS application developer ("you" or "your") may distribute a Derivative Work provided that you and the Derivative Work meet all of the following conditions: You obey the GPL in all respects for the Program and all portions (including modifications) of the Program included in the Derivative Work (provided that this condition does not apply to Independent Works); The Derivative Work does not include any work licensed under the GPL other than the Program; You distribute Independent Works subject to a license listed in the section below titled "FOSS License List"; You distribute Independent Works in object code or executable form with the complete corresponding machine-readable source code on the same medium and under the same FOSS license applying to the object code or executable forms; All works that are aggregated with the Program or the Derivative Work on a medium or volume of storage are not derivative works of the Program, Derivative Work or FOSS Application, and must reasonably be considered independent and separate works. Oracle reserves all rights not expressly granted in these terms and conditions. If all of the above conditions are not met, then this FOSS License Exception does not apply to you or your Derivative Work. .

#### FOSS License Lis

License Name Version(s)/Copyright Date

GPLv2 Disclaimer

For the avoidance of doubt, except that if any license choice

other than GPL or LGPL is available it will apply instead,  
Oracle elects to use only the General Public License version 2  
(GPLv2) at this time for any software where a choice of GPL  
license versions is made available with the language indicating  
that GPLv2 or any later version may be used, or where a choice  
of which version of the GPL is applied is otherwise unspecified.

.

This previously copyrighted work has been placed into the public domain by the author and may be freely used for any purpose, private or commercial. .

Because of the number of inquiries I was receiving about the use of this product in commercially developed works I have decided to simply make it public domain to further its unrestricted use. I specifically would be most happy to see this material become a part of the standard Unix distributions by AT&T and the Berkeley Computer Science Research Group, and a standard part of the GNU system from the Free Software Foundation. .

I would appreciate it, as a courtesy, if this notice is left in all copies and derivative works. Thank you. .

The author makes no warranty of any kind with respect to this product and explicitly disclaims any implied warranties of merchantability or fitness for any particular purpose.
