

KACE System Management Appliances Essentials QuickStart - Prepaid

Description

The **KACE Systems Management Appliances (SMA) Essentials QuickStart** service is a custom-tailored implementation solution designed to assist you with the initial implementation and configuration of your KACE SMA. The service focuses on ensuring KACE is configured optimally for your environment and priority administrative needs. It also includes knowledge transfer on how best to manage your KACE appliance's core processes and features.

Outcomes

Our KACE Subject Matter Experts (“SMEs”) ensure all the core features and configurations of your KACE SMA, such as initial setup, agent provisioning, custom inventorying, and more, are quickly and efficiently implemented. By leveraging our time-tested methodologies and expert guidance through the implementation processes, your IT teams will be ready to administer KACE to best serve your environmental demands.

Benefits

- Ensure your KACE solution is set up quickly and correctly.
- Save valuable time with help from experts to implement your new solution.
- Learn best practices to ensure you use the solution to its fullest potential.

Approach and activities

With the **KACE Systems Management Appliance Essentials QuickStart** service, you will receive support on all the core features. The activities supported within each core feature are listed in ‘Appendix A.’

KACE SMA QuickStart – <u>Core</u> Features	
Product Overview	●
Initial Setup Configuration	●
Agent Provisioning	●
Inventory Data	●
Custom Inventory	●
Intro to Self-Paced Training Library	●

● = core

NOTE: The 'Service Desk' feature configuration is not available under this service but is available through a separately purchased service

The SMA Essentials QuickStart includes the following activities, which are typically delivered in three (3) sessions:

- **Discovery / Architecture / Design & Documentation**
 - Review implementation business objectives, confirm the expected scope, and identify key personnel.
 - Validate that service prerequisites are fulfilled.
 - Define a proposed architecture of the KACE SMA solution for the environment.
 - Define the project timeline with scheduling details on the specifics and duration for each needed session required to deliver all the features included/selected.
 - Produce a KACE Architecture Specification document to use as the implementation blueprint and standard for evaluation of the ongoing implementation - Provide knowledge transfer on the Self-Paced Training Library

- **Deployment**
 - Deploy and configure one (1) KACE SMA
 - Perform all core feature activities.
 - Review the KACE SMA user base and monitor and report use cases.

- **Knowledge Transfer**
 - Discuss the operational use of the KACE SMA, its configuration, and best practices.
 - Provide knowledge transfer on key admiration activities for the core features.

Prerequisites and assumptions

- Scope of services assumes just one (1) KACE SMA implementation with a single ORG.
- All service activities are to be completed within 60 days.
- No service activities shall occur during local, state, and country holidays unless other arrangements have been coordinated through the Quest.
- All services expire twelve (12) months from the date of purchase.

Customer will:

- Ensure their environment meets or exceeds the hardware and operating environment software minimum specifications outlined in the "Hardware Specifications" section of the KACE SMA webpage (found on www.quest.com/products/kace-systems-management-appliance/)
- Provide remote access to the KACE SMA via WebEx and, if required, a support tether.
- Ensure all networking-related setups for the server are completed before engagement.
- Ensure connectivity access (through a firewall established between all agents if applicable) is configured between the server and agents.
- Ensure an active user account is established within the desired integration application (such as vCenter, Hyper-V, Exchange, Active Directory, Chargeback, etc.)
- Ensure other technical and business resources, as needed, will be able to participate throughout the engagement.
